

YOUR PERSONAL AI ROADMAP · THE HUMAN BRIDGE

The Human Bridge *Premium Playbook*

"Your gift was never the problem. The infrastructure around it was. That changes today."

🎯 The 1:1 Coach

💎 The Community Builder

💎 The Trainer

📋 The Counselor

What this playbook is not: a guide to replacing human connection with AI.

What it is: your operating system for protecting your most valuable asset — your presence — by giving AI every task that drains it. Your gift is the product. This is the infrastructure.

1

Who you are. And why AI needs you more than you need it.

You are the person people call when things fall apart. Not because you always have the answer, but because you make the person on the other end feel less alone in the question. That is a rare and extraordinary thing. And you have been giving it away, often for free, almost always for less than it is worth, because somewhere along the way you learned that charging for something this human felt wrong.

Here is the hard truth. **Your gift has been doing all the heavy lifting, including the lifting it was never supposed to do.** The emails you dread writing. The session notes you never quite finish. The content you know would help people but never find time to create. The follow-ups sitting in your drafts. All of it is pulling you away from the thing you are actually here for.

AI does not replace what you do. It is not capable of sitting with someone in the way you sit with them. What AI does is take every draining task off your plate so that when you show up for a person, you arrive full instead of half-empty. **That is the shift. More of you available to the people who need you. And a business that finally earns what your gift is worth.**

The truth most Human Bridges need to hear: "The world does not need a watered-down version of your gift delivered by someone who is running on empty. It needs the full version. AI is how you protect the full version and give it to more people at the same time."

2

Which Human Bridge are you?

Human Bridges show up in four distinct ways. The core of who you are is the same across all four. Your specific tools, income model, and 90-day plan will differ. Find your closest match.

The 1:1 Coach or Mentor

THE DEPTH PRACTITIONER

You guide individuals through transformation, one person at a time. Your clients pay for your presence, your questions, and your ability to see them clearly. AI prepares you for every session and handles everything between them.

\$3k to \$10k/month potential

The Community Builder

THE SPACE HOLDER

You create belonging. Circles, groups, memberships, safe spaces where people feel seen and supported. Your superpower is holding a room. AI runs everything between your live sessions so the community thrives without burning you out.

\$2k to \$8k/month potential

The Trainer or Facilitator

THE GUIDED JOURNEY MAKER

You lead groups through structured learning experiences: workshops, programmes, corporate training. You design the journey and facilitate the room. AI builds your materials, manages your admin, and handles post-session communication.

\$4k to \$15k/month potential

The Counselor or Wellbeing Guide

THE HEALING FACILITATOR

You support people through grief, transition, mental health challenges, or emotional complexity. The trust people place in you is sacred. AI handles your scheduling, documentation, content, and outreach, so you reserve all of yourself for the work that matters.

\$3k to \$12k/month potential

3

Your 6 natural strengths. And why AI makes each one worth more.

Deep Listening

You hear what people are not saying. That gap between what someone expresses and what they mean is where you live. This cannot be trained, scaled, or replicated by any tool.

AI takes the notes. You stay fully present.

Instant Trust

People feel safe around you faster than they feel safe around most. That trust, built in minutes, is the foundation every coaching or counseling relationship needs. It is entirely human.

AI finds the right people for you to build with.

Community Creation

You create belonging wherever you go. In a world where people feel more disconnected than ever, that ability is a genuine commercial superpower.

AI runs the community between your live sessions.

Emotional Intelligence

You read rooms, relationships, and people with extraordinary accuracy. That emotional read is what separates powerful facilitation from a good presentation.

AI prepares the logistics. You bring the intelligence.

Natural Teaching

You explain things in a way that makes people feel capable instead of confused. Your explanations land because they start from where the person actually is.

AI structures the curriculum. You deliver the insight.

Consistent Presence

You show up. Over time, reliably, for people. That consistency builds the kind of loyalty and referral networks that marketing budgets cannot buy.

AI handles the admin that was making consistency hard.

Step zero: The Cognitive Interview Protocol.

Before you touch any tool, you need to train your AI on who you are. Human Bridges who skip this step generate content that sounds warm but generic. It does not sound like them. **This one-hour setup means every email, every session note, every social post will sound unmistakably like you for as long as you use the tool.**

Record an 8-minute voice memo on your phone. Speak freely about: the work you do, why you do it, who you most love helping, one client story that stayed with you, your biggest operational frustration right now, and where you want to be in 12 months. Do not edit. Just speak. Export the transcript and run the prompt below.

MASTER PROMPT · THE HUMAN BRIDGE COGNITIVE INTERVIEW ENGINE

Run this first. Everything else builds on it.

Attached is a raw, unedited voice transcript of my spoken thoughts — my current work, my philosophy, my professional background, my natural conversational voice, and my goals and aspirations.

Act as my Personal Brand Architect and Empathetic Coach. Before we generate any content or frameworks, your task is to deeply understand who I am, how I speak, what I believe, and what I am building toward.

Read the transcript and ask me 10 deeply thoughtful questions — one by one — to understand:

- The specific people I am most called to serve and why
- The transformation I create and how I describe it in my own words
- My goals and aspirations for my work and my life in the next 12 months
- What drains me most about running my work right now
- My non-negotiables: what I will and will not do, no matter what
- How I want people to feel when they interact with my brand

After I answer, write my Human Bridge Profile: my voice, my philosophy, my service vision, my ideal client, my income goals, and my boundaries.

Save this as my permanent AI baseline. Use it to write everything — in my voice, always.

Paste this into Claude (claude.ai — recommended) or ChatGPT Premium. Paste your voice transcript directly above it. Answer the 10 questions. This session is the foundation of your entire AI operating system.

Your complete tool stack. Plain English. With alternatives.

Every tool chosen because it protects your time, extends your presence, and handles what drains you. Start with the free ones. Add the rest as your income grows.

STRATEGIC AI PARTNER

Claude · claude.ai

Your thinking partner, session prep tool, and voice writer in one

Tell Claude about your next client session and it helps you prepare better questions, anticipate what might come up, and arrive fully ready. After the session, paste in your rough notes and it writes them up professionally. It also writes your emails, your social content, and your newsletters in your voice — once you have trained it with the Cognitive Interview Protocol.

Best for: session prep, client follow-up notes, email drafts, social content, workshop outlines, programme curriculum

FREE AT CLAUDE.AI

Alternatives: ChatGPT · Gemini Advanced

EMAIL MARKETING AND AUDIENCE

Beehiiv · beehiiv.com

The audience you own. Your most valuable long-term asset.

Every person whose life you touch needs a way to stay in your world. Beehiiv is where they sign up to hear from you weekly. Claude writes the emails in your voice. You review and send. Over time this list becomes the most reliable, personal, and profitable channel you have — because it belongs entirely to you, not to any algorithm.

Best for: weekly insights, nurturing potential clients, announcing new offers, building a referral-ready audience

FREE TO 2,500 SUBSCRIBERS

Alternatives: Kit (ConvertKit) · Substack · Mailchimp

PERSONAL VIDEO OUTREACH

Loom · loom.com

Your warmth, delivered personally — at scale

Instead of a long follow-up email after a session or a cold text to a potential client, you record a 2 to 3 minute personal video. Your face. Your voice. Your energy. For a Human Bridge, this is your most powerful outreach tool because it gives people a genuine sense of who you are before they ever book a session. AI trims silences and adds captions automatically.

Best for: post-session follow-ups, warm outreach to potential clients, programme welcome videos, community updates

FREE TIER AVAILABLE

Alternatives: Tella · Vidyad · Riverside

BOOKING AND SCHEDULING

Calendly · calendly.com

End the back-and-forth. Let people book themselves.

You send one link. They pick a time. It syncs to your calendar, sends them a confirmation, and reminds them automatically before the session. The endless email chain of "are you free Thursday?" disappears entirely. For a Human Bridge who values every conversation, this small change reclaims hours every week.

Best for: discovery calls, coaching sessions, workshops, intake conversations

FREE BASIC PLAN

Alternatives: TidyCal · Acuity · Google Calendar booking

AUTOMATION HUB

Make.com · make.com

The system that runs your business between your sessions

Someone fills in your intake form — Make.com sends them a welcome email, adds them to your Beehiiv list, creates their client record, and sends you a summary. All automatically. You build it once. It runs while you are present with a client, asleep, or anywhere else. No code required.

Best for: client onboarding, new subscriber welcome sequences, booking confirmations, session reminder workflows

FREE: 1,000 OPERATIONS/MONTH

Alternatives: Zapier · n8n

VISUAL CONTENT CREATION

Canva AI · canva.com

Turn your words into visuals without a designer

Claude writes the content. Canva AI turns it into beautiful graphics: session workbooks, social media carousels, workshop slides, programme PDFs, and lead magnets. No design skills needed. For Human Bridges who want their brand to feel as warm visually as their work feels in practice, this is the tool.

Best for: workshop materials, social carousels, client workbooks, lead magnets, programme guides

FREE TIER AVAILABLE

Alternatives: Adobe Express · Gamma.app

PAYMENTS AND BOOKING

Stripe · stripe.com

Get paid simply, professionally, without the awkwardness

You send a payment link. They click it. You get paid. Stripe handles the transaction, the receipt, and the record. For Human Bridges who find money conversations uncomfortable, having a clean, professional payment system removes the friction entirely. You discuss the work. Stripe handles the transaction.

Best for: 1:1 packages, group programme payments, course sales, community memberships

FREE TO SET UP · 1.5% PER TRANSACTION

Alternatives: PayPal · Gumroad · Kajabi

Your prompt library. Copy. Paste. Use today.

Run the Cognitive Interview Protocol in Section 4 first. Then paste your Human Bridge Profile at the top of each conversation before using these prompts. Every output will sound like you.

◆ Session Preparation Prompt

All personas

Use before any coaching, counseling, or facilitation session. Paste in what you know about the person and the session focus.

I have a session tomorrow with [client name or brief description].

Here is what I know about them and where they are right now: [describe their situation, what they shared in previous sessions, what they are working through]

The focus of this session is: [what we are exploring or working on]

Help me prepare by:

1. Three powerful questions I could open with that will help them go deeper quickly
2. Any patterns or themes I should be listening for based on what I know
3. What a successful outcome for this session might look and feel like
4. One story, reframe, or insight I might offer if they get stuck
5. How to close the session in a way that leaves them with clear next steps and a sense of momentum

Write this as notes I can review in the 10 minutes before the session.

◆ Session Notes and Follow-Up

Coach · Counselor

Use immediately after a session. Paste your rough notes or a voice memo transcript. Gets your documentation done in 5 minutes.

Here are my rough notes from a session I just completed:

[PASTE YOUR NOTES OR VOICE MEMO TRANSCRIPT HERE]

My voice and brand guidelines: [paste relevant section from your Human Bridge Profile]

Please:

1. Write a clean session summary (6 to 8 sentences) that I can save in my client file
2. Write a warm, personal follow-up email to the client that references one specific moment from the session, reinforces their key insight, and names their one clear next step
3. Identify any themes or patterns I should carry into our next session
4. Note anything I should follow up on before we meet again

Keep the follow-up email warm but not overly effusive. It should sound like me — direct, caring, specific.

◆ Workshop or Programme Curriculum Builder

Trainer · Community Builder

Use to design a new programme, workshop, or course from scratch. Be as specific as possible about who it is for.

I want to create a [workshop / 4-week programme / 6-session course] for [specific type of person].

The transformation I want them to experience: [what changes for them from start to finish]

Their starting point: [where they typically are when they come to me]

Their desired outcome: [where they want to be]

The format: [live sessions / recorded / hybrid / in-person]

Length: [total duration and session length]

Design the full curriculum including:

1. A compelling programme title and one-line description
2. Session by session breakdown: what we cover, what participants leave with, and the emotional arc
3. The materials I will need to create for each session
4. A homework or reflection prompt for between each session
5. How the programme builds momentum from week one through to completion

Write this so I can share it with a potential client as a programme overview.

◆ Weekly Newsletter or Email to Your List

All personas

Use to write your weekly email in under 20 minutes. Feed it a story, a reflection, or a voice memo from your week.

I want to write my weekly email to my list.

Here is the story, reflection, or insight I want to share this week: [describe it — a moment from a session (anonymised), something you observed, something you have been sitting with]

My audience: [who is on your list and where they are in their journey]

My current offer: [what you are inviting people toward right now]

My voice: [paste relevant section from your Human Bridge Profile]

Write an email that:

- Opens with the human story or observation (not an announcement)
- Draws out the insight or lesson in a way that makes the reader think "this is about me"
- Connects naturally to a gentle invitation toward [your offer or next step]
- Ends with a closing line that feels like the end of a genuine conversation
- Is between 350 and 450 words

No hollow affirmations. No "smashing goals" language. My readers come to feel understood, not motivated.

◆ Offer Packaging and Pricing

All personas

Use when creating or repricing a coaching package, programme, or community offer. Be honest about what you currently charge.

I want to package and price my work properly.

What I currently offer: [describe what you do and how you currently structure it]

What I currently charge: [your current pricing]

Who I serve: [describe your ideal client specifically]

The transformation I create: [what changes for people after working with me]

My income goal for this offer: [what you want to earn per month from this]

Help me:

1. Name and frame this offer so that the value is immediately clear to someone who needs it
2. Structure it properly: what is included, how long, how many touchpoints
3. Price it at a level that reflects the transformation, not the time
4. Write a one-paragraph offer description I can use on my website and in conversations
5. Identify a lower-priced entry offer and a higher-priced premium tier I could add

I want to stop undercharging. Help me understand what this is actually worth.

◆ Social Content from a Client Story

All personas

Use to turn something that happened in your work this week into content that attracts the right people. Always anonymise client details.

I want to turn a moment from my work this week into social content.

Here is the story or observation (all client details anonymised): [describe it]

My audience: [who follows me and who I want to attract]

My voice: [paste relevant section from your Human Bridge Profile]

Create:

1. One Instagram or LinkedIn post: opens with the human moment, draws out the insight, ends with a question that invites people to share their own experience
2. One short-form video script: 60 seconds, conversational, starts with the most relatable line from the story
3. One carousel post: 6 slides, hook + 4 insight slides + closing invitation

Keep everything warm, specific, and human. No generic motivational quotes. My content should make people think "she was talking directly to me."

Income paths and career moves built for your archetype.

PATH	WHAT YOU ACTUALLY DO	WHO IT FITS	REALISTIC INCOME
1:1 Coaching Practice	You guide individuals through transformation. AI preps every session, writes all follow-ups, and handles your content. You show up present every time.	Coach Counselor	\$2k to \$8k/month
Group Coaching Programme	You run cohorts of 6 to 12 people through a structured transformation. One delivery effort, multiple fees. AI builds the curriculum and manages communication between sessions.	Coach Trainer	\$3k to \$12k/launch
Paid Community Membership	You hold a recurring space people pay to be part of. Monthly live sessions plus a nurturing environment between them. AI runs the content and admin between your live appearances.	Community	\$49 to \$297/member/mo
Corporate Wellbeing Trainer	Companies hire you to facilitate workshops on emotional intelligence, resilience, communication, or team wellbeing. AI prepares all your materials. You walk in and run the room.	Trainer	\$1k to \$8k/day
Online Course or Digital Programme	You package your methodology into something people can buy and learn from independently. AI structures the curriculum. You record the lessons. It earns while you sleep.	Coach Trainer	\$97 to \$1k per sale
Podcast or Newsletter Monetisation	You share your wisdom consistently. Your audience grows. Sponsors, partners, and community members pay to be in your world. AI produces 80% of the content. You bring the voice.	Community	\$1k to \$10k/month

THE 1:1 COACH OR MENTOR

Depth Premium

\$3k to \$10k/month

Your clients pay for the transformation, not the hour. AI elevates every session by making your preparation deeper, your follow-up richer, and your content more consistent.

- 4-session packages: \$250 to \$500 per package to start
- Monthly retainer coaching: \$500 to \$2,000 per client
- VIP intensive day: \$1,500 to \$5,000
- 6-month transformation programme: \$3,000 to \$8,000

THE COMMUNITY BUILDER

Recurring Belonging

\$2k to \$8k/month

Your income recurs every month without you acquiring new clients. You grow the community and the income grows with it.

- Paid membership: \$49 to \$149/month per member
- 20 members: \$1,000 to \$3,000/month recurring
- 50 members: \$2,500 to \$7,500/month recurring
- Annual membership option: 10 to 20% discount, full year upfront

THE TRAINER OR FACILITATOR

Group Impact Premium

\$4k to \$15k/month

One delivery serves many. AI builds your materials before the session and handles all communication after it. You earn more per hour than any 1:1 model.

- Half-day corporate workshop: \$1,500 to \$5,000
- Full-day facilitation: \$3,000 to \$10,000
- Group programme: \$500 to \$2,000 per participant
- Ongoing training contract: \$2,000 to \$5,000/month

THE COUNSELOR OR WELLBEING GUIDE

Trusted Practice

\$3k to \$12k/month

Your work commands premium rates because trust is the barrier to entry. AI handles everything outside the session so you can hold more clients without sacrificing quality.

- Individual sessions: \$120 to \$300 per session
- 8-session programme: \$1,200 to \$2,400
- Corporate wellbeing contract: \$2,000 to \$6,000/month
- Group healing or support programme: \$200 to \$500 per participant

Your 90-day Human Bridge operating system.

Three phases. Each one builds on the last. Do not skip ahead. The foundation in Phase 1 is what makes Phases 2 and 3 feel effortless rather than frantic.

01

PHASE 1 · DAYS 1 TO 30

Foundation: Train your AI and build your first paying client

Goal: Your tools are set up. Your offer is clear. Your first \$1,000 is in.

Human Bridges often skip setup because helping people feels more natural than building infrastructure. Spend this month doing the setup properly. Everything in Phases 2 and 3 will feel effortless because of the work you do in Phase 1.

WEEK 1 · SET UP

- Run the Cognitive Interview Protocol. Store your profile.
- Create: Claude, Beehiiv, Calendly, Stripe (all free to start)
- Use Prompt 5 to write and price your first clear offer
- Set up your Calendly booking link
- Record a 60-second intro video on Loom. Share it once.

WEEK 2 · REACH OUT

- Identify 8 people already in your life who could benefit from your offer
- Send a personal check-in message to each — not a pitch
- Use Prompt 6 to write one piece of social content from something real this week
- Set up Beehiiv welcome email using Claude and your voice profile
- Post once. A real story. Not a promotion.

WEEK 3 TO 4 · FIRST CLIENT

- Follow up on conversations that showed interest
- Make your offer clearly to anyone ready to hear it
- Run your first paid session. Use Prompt 1 to prepare.
- Use Prompt 2 immediately after for notes and follow-up
- Ask your first client for a testimonial at session 2

PHASE 1 TARGET **\$500 to \$1,500**

First paying client. Offer proven.

02

PHASE 2 · DAYS 31 TO 60

Scale: Build recurring income without more of your time

Goal: 4 to 8 active clients. A recurring income stream started.

You have proved the offer works. Phase 2 is about building the systems that fill your calendar and nurture your audience without you manually doing both every week. This is where AI earns its place most clearly.

WEEK 5 TO 6 · SYSTEMS

- Set up Make.com automation: booking confirmation + welcome email + client record
- Use Prompt 4 to write 4 weekly emails in advance. Schedule them in Beehiiv.
- Create one lead magnet using Claude and Canva (a guide, a workbook, a checklist)
- Add the lead magnet to your Beehiiv welcome sequence
- Post 3 times per week using Prompt 6

WEEK 7 TO 8 · VOLUME

- Reach out to 5 more people in your network with your offer
- Ask your existing clients for referrals explicitly and warmly
- Use Prompt 3 to design your first group offer or programme
- Announce the group offer to your Beehiiv list
- Track: how many inquiries, how many booked, how many converted

RETENTION · ONGOING

- Use Prompt 2 after every session — never skip this
- Send your weekly email without fail. Consistency builds the list.
- At session 3 of each engagement, offer the continuation
- One Loom per week to your community or warm leads
- Review: what content brought you inquiries this month?

PHASE 2 TARGET

\$2,500 to \$5,000/month

Recurring clients. First group offer launched.

03

PHASE 3 · DAYS 61 TO 90

Leverage: Income that runs while you rest

Goal: A second income stream that earns without more 1:1 time.

You now have a practice that earns. Phase 3 is about building the next layer — income that does not require you to be on a call to produce it. A community membership. A digital course. A corporate contract. One thing that scales.

WEEK 9 TO 10 · BUILD

- Use Prompt 3 to design your first course, community, or group programme
- Use Claude to write all course materials from voice memos
- Set up your community on a free platform (WhatsApp, Discord, Circle)
- Price it. Start between \$49 and \$197/month or \$197 to \$497 one-time.
- Launch it to your Beehiiv list first

WEEK 11 · ANNOUNCE

- Use Prompt 6 to create a 5-day content series launching your new offer
- Send 3 emails to your list about the new offer using Prompt 4
- Offer a founding member rate for the first 10 people
- Share one testimonial from a current client every other day this week
- Set up Make.com automation for new member welcome and onboarding

WEEK 12 · REVIEW

- Review: what worked, what did not, what you would do differently
- Raise 1:1 rates by 20% for new clients
- Plan what you want your calendar to look like in month 6
- Identify one corporate opportunity to pursue in the next 90 days
- Write your testimonial and case study for your best client result this quarter

PHASE 3 TARGET \$5,000 to \$12,000/month

1:1 practice plus scalable income stream.

10

Real Human Bridges. Real moves.**THE 1:1 COACH · CAREER AND LIFE TRANSITIONS**

"I had been coaching informally for three years. Free sessions for friends, underpriced packages for clients who found me by word of mouth. I sat down and followed the playbook on a Tuesday. I wrote my offer, priced it at \$250 for four sessions, and messaged six people I had been supporting for free. Three of them said yes that same day. I cried in the car on the way home."

Human Bridge · Life coach · UK

The traps your archetype falls into. Named so you skip them.

"Charging feels wrong for something this personal"

Putting a price on something sacred feels like it cheapens it.

◆ **Fix:** Not charging is what cheapens it. When you run yourself to empty giving your gift away, the people who most need the full version of you get a depleted one. Charging protects your gift. It does not diminish it.

Over-delivering until there is nothing left

If I give more, they will see the value and be more likely to continue.

◆ **Fix:** Over-delivering past the agreed scope trains clients to expect more than they are paying for. Use Claude to prepare so thoroughly that the agreed scope delivers extraordinary results. That is what creates renewals.

Skipping the Cognitive Interview and writing content that sounds generic

I will just use AI to write a few posts and see how it goes.

◆ **Fix:** Without the Cognitive Interview, the AI does not know your voice. The content it produces will sound warm but impersonal — and your audience will feel the difference. Section 4 first. Always.

Waiting until the offer is perfect to tell anyone about it

I need to have everything in place before I start charging properly.

◆ **Fix:** Your first version does not need to be perfect. It needs to be real and genuinely helpful. The refinement comes from delivering it to actual clients, not from designing it in isolation. Start this week.

Building for everyone instead of someone specific

I do not want to exclude anyone. My work could help lots of different people.

◆ **Fix:** The most impactful Human Bridges serve a specific person going through a specific thing. The more specific your positioning, the more powerfully the right person feels called by it. Specificity is not exclusion. It is precision.

Your Human Edge With AI

· The Human Bridge Premium Playbook

temitopesaliu.com · Your presence is the product. AI is the infrastructure.
